

Facilitators

Prof. Dr. Juliana Raupp

Professor of Journalism and Communication Studies with a focus on Organizational Communication at the Free University of Berlin.

Curriculum vitae

Studied communication science and political science at the University of Amsterdam (1983-1989). Several years' experience as a research assistant, in professional training, in public relations and in market and opinion research. Doctorate in 2000 at the Free University of Berlin. Lecturer at the Universities of Zurich, Fribourg (CH) and Paris XII. From 2004-2006, she led and worked on a project on political opinion research funded by the German Research Foundation (DFG). Since 2006 Professor of Journalism and Communication Studies with a focus on Organizational Communication at the Institute of Journalism and Communication Studies at the Free University of Berlin.

Interdisciplinary project experience

Participatory risk communication & trans-sectoral research platform: IRMRESS project part of the research network "InfectControl Zwanzig20", funded by the BMBF, duration: 09/2015-02/2019. A network of researchers from human and veterinary medicine and communication science developed and tested new treatment options against infectious diseases and at the same time analysed in a participatory approach the perception and risk communication of such new developments among the affected occupational groups (including farmers).

Communication strategies for nutritional emergency prevention: Sub-project in the joint project "NeuENV - Neue Strategien der Ernährungsnotfallvorsorge" (Duration: 01/2012-11/2015). The BMBF-funded research network, which included researchers from the fields of computer science, nutrition science and logistics, addressed the issue of securing the critical infrastructure of food supply in the event of a crisis. The communication science subproject investigated the question of the extent to which competent authorities and their stakeholders as well as the media are prepared for and would deal with a food emergency situation in terms of communication.

Dr. Lee Roh Pin

Head of the Department "Technology Assessment" Division Head, TU Bergakademie Freiberg

Curriculum vitae
