

- 09.00 – 10.00      **Registration, RIVM, Bilthoven Room T012**  
Location: Rijksinstituut voor Volksgezondheid en Milieu, Antonie van Leeuwenhoeklaan 9, 3721 MA Bilthoven
- 10.00 – 10.15      **Welcome Room T007**  
Prof. Jaap van Dissel. Director, RIVM Centre for Infectious Disease Control  
Prof. Michael Siegrist, ETH Zürich. SRA Europe  
Frederic Boudier, Maastricht University, the Netherlands. SRA E Benelux
- 10.15 – 11.00      **Keynote Room T007**  
Dr. Agnes Kant, Director, LAREB. Drug and Vaccine Safety: Lareb's experience
- 11.00 – 11.15      **Coffee Break Room T012**
- 11.15 – 12:15      **Parallel Sessions**  
Parallel session 1 **Room T007**  
Parallel session 2 **Room T008**  
Parallel session 3 **Room T004**
- 12:15 – 13.00      **Lunch Break T012**
- 13.00 – 14.00      **Plenary Session Room T007**  
  
Dr. Mariken van der Lubben CiB, RIVM. *The control of antimicrobial resistance in the Netherlands.*  
  
Prof. Daniëlle Timmermans, Chief Science Officer Risk Communication, RIVM. *Trust & affect and the implications for vaccination behavior.*
- 14.00 – 15:30      **Parallel Sessions**  
Parallel session 4 – **Room T007**  
Parallel session 5 – **Room T008**
- 15:30 – 15.45      **Coffee Break Room T012**
- 15:45-16:30      **Roundtable discussion: Uncertainty tradeoffs Room T007**  
  
Moderated by Prof. Ragnar Löfstedt , King's College London, UK  
Dominic Way, King's College London  
David Haerry-European Aids Treatment Group (EATG)  
Pierre Bentata, Troyes Business School

16.30 – 17.00 **Business Meeting Room T007**

17.00 – 18:30 **Drinks Room T012**

### **Parallel sessions (15 minutes per talk):**

#### **Parallel Session 1 – Vaccines**

**Chair: Dominic Way**

1. Birthe Lehmann, RIVM. Perception of parents about childhood immunizations and the effect of media attention
2. Dimitri A. Diavatopoulos. Radboud University Medical Centre. Risk-benefits of whole cell and acellular pertussis vaccines
3. Tom Woudenberg, RIVM Control measures during a measles outbreak

#### **Parallel Session 2 – From assessment to management**

**Chair: Ric van Poll**

1. Gaston Meskens, Science & Technology Studies Unit, SCK•CEN (Belgium)  
The politics of hypothesis – An inquiry into the ethics of scientific assessment
2. Engeline van Duijkeren, RIVM. Comparative Exposure Assessment of ESBL Producing Escherichia coli through Meat Consumption
3. Floris Goerlandt, Aalto University, Finland. Tools for ecosystem service-based operational maritime shipping oil spill risk management

#### **Parallel Session 3 – Trends in Dutch risk policy**

**Chair: Frederic Boudier**

1. Maarten de Haan, Maastricht University. Regulating Medical Practice in the Netherlands: Exploring the 'reserved procedures' clause in Dutch healthcare legislation
2. Tom Jansen, RIVM. Perceptions of uncertain risk in societal groups
3. Leendert Gooijer, RIVM. The Dutch National Risk Profile: understanding risk

#### **Parallel Session 4– Antimicrobial Resistance**

**Chair: Frederic Boudier**

1. Jeroen Devilee, RIVM. The Pharmacovigilance has a potential to reduce the risk of resistance and actively fight against AMR.
2. Aleksandra Opalska Utrecht/WHO collaborating centre for Pharmaceutical Policy and Regulatory. Role of Pharmacovigilance in tackling Antimicrobial Resistance (AMR)
3. Marie-Valentine Florin, IRGC.  
Applying the IRGC Emerging Risk Governance Guidelines to Antimicrobial Resistance
4. Mirko Ancillotti, Centre for Research Ethics and Bioethics, Uppsala University.

What are people's attitudes when facing sickness and having to trade-off benefits and risks, and personal or present gain versus social or future gain?

5. Pita Spruijti, RIVM. Governance of antibioticresistance.

## **Parallel Session 5 – Advancements in cognitive Risk Research**

### **Chair: Marijn Poortvliet**

1. Margôt Kuttschreuter. University of Twente. Effectiveness of a serious game to discourage inadequate behaviour in case of a freight train accident
2. Nicole Huijts . Perceived risks and benefits, procedural and distributive fairness, trust and prior awareness as antecedents of specific emotions about a hydrogen fuel station T
3. Anne Michiels van Kessenich. Helping children to understand the risk-concept and develop the thinking tools to deal with decision making under conditions of uncertainty.
4. Harry Slaper RIVM. Radiation risks in perspective: the gap between population perception and expert views for nuclear emergencies

**To enter RIVM please do not forget to bring your ID**
